SAFETY DATA SHEET

11561 Westminster Ave
Garden Grove, CA 92843

Office: 714-554-8880
Fax: 714-554-8887

US Hazmat Emergency: 800-373-7542
Intl Hazmat Emergency: +1-484-951-2432

SECTION 1. IDENTIFICATION

Brand: Cre8tion

Trade Name: After Wax Remover Oil 16oz

Product Number: 21148

Address: 11561 Westminster Ave, Garden Grove, CA 92843

SECTION 2. HAZARDS IDENTIFICATION

Hazards identification:

H225

Flam. Liq. 2

Highly flammable liquid and vapour.

Labelling

Danger

Hazard Statements

H225 Highly flammable liquid and vapour

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

INCI	CAS #
Water	7732-18-5
Ethanol	64-17-5
Frangrance	
Carbomer	9003-01-4
Triethanolamine	102-71-6
Propylene Glycol	57-55-6
DMDM hydantoin	6440-58-0
Aloe Barbadensis Leaf Juice	85507-69-3
Cucumis Fruit Extract	89998-01-6
CI 47005	8004-92-0
CI 61570	4403-90-1

SECTION 4. FIRST AID MEASURES

General information:

In case of accident or unwellness, seek medical advice immediately (show directions for use or safety data sheet if possible).

Do not leave affected person unattended.

Remove victim out of the danger area.

Keep affected person warm, still and covered.

Remove the affected person from the danger zone and lay down.

Following inhalation:

Remove person to fresh air and keep comfortable for breathing.

Following skin contact:

Remove contaminated, saturated clothing immediately.

After contact with skin, wash immediately with plenty of water and soap.

Take off immediately all contaminated clothing.

Following eye contact:

In case of eye irritation consult an ophthalmologist.

Rinse immediately carefully and thoroughly with eyebath or water.

Following ingestion:

Never give anything by mouth to an unconscious person or a person with cramps.

IF SWALLOWED: Rinse mouth.

Do NOT induce vomiting.

Self-protection of the first aider: First aider: Pay attention to self-protection.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media:

Foam.

Extinguishing powder.

Carbon dioxide (CO2).

Sand.

Unsuitable extinguishing media: Strong water jet.

Special hazards arising from the substance or mixture: Formation of toxic gases is possible during heating or in case of fire.

Advice for firefighters: Wear a self-contained breathing apparatus and chemical protective clothing.

Additional information:

Do not inhale vapors and fumes.

Co-ordinate fire-fighting measures to the fire surroundings.

Move undamaged containers from immediate hazard area if it can be done safely.

Use caution when applying carbon dioxide in confined spaces. Carbon dioxide can displace oxygen.

Use water spray jet to protect personnel and to cool endangered containers.

Collect contaminated fire extinguishing water separately. Do not allow entering drains or surface water

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures:

Use personal protection equipment.

Use appropriate respiratory protection.

Provide adequate ventilation.

Environmental precautions:

Ensure that waste is collected and contained.

Contain leaks or spills within cabinets with removable trays.

Methods and material for containment and cleaning up:

Treat the recovered material as prescribed in the section on waste disposal.

Collect in closed and suitable containers for disposal.

Absorb liquid-binding material (e.g. sand, diatomaceous earth, acid- or universal binding agents).

Wipe up with absorbent material (e.g. cloth, fleece).

Reference to other sections:

Safe handling: see section 7.

Disposal: see section 13.

Personal protection equipment: see section 8

SECTION 7. HANDLING AND STORAGE

PROTECTIVE MEASURES:

Avoid contact with skin, eyes and clothes

Remove fume condensates periodically from extraction hoods, leads and other surfaces (wear personal protective clothing!) as there is a risk of catching fire.

Use only in well-ventilated areas.

If local exhaust ventilation is not possible or not enough, the entire work area must be ventilated by technical means.

Keep away from sources of heat (e.g. hot surfaces), sparks and open flames.

Provide earthing containers, equipment, pumps and ventilation facilities.

Take precautionary measures against static discharges.

Provide adequate ventilation as well as local exhaustion at critical locations.

Vapours/aerosols should be exhausted directly at the point of origin

Advices on general occupational hygiene:

Wash hands before breaks and after work.

Remove contaminated, saturated clothing.

Work in well-ventilated zones or use proper respiratory protection

Conditions for safe storage, including any incompatibilities

Keep container tightly closed in a dry, cool, and well-ventilated place.

Keep container in upright position in order to prevent leakage.

Requirements for storage rooms and vessels:

Ensure adequate ventilation of the storage area.

Ground/bond container and receiving equipment.

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

Advice on joint storage:

Keep away from food, drink and animal feedingstuffs.

Keep away from clothing and other combustible materials.

Keep only in the original container in a cool, well-ventilated place, away from highly flammable substances.

Further information on storage conditions:

Use explosion-proof electrical/ventilating/lighting/.../equipment.

Use only non-sparking tools

Specific end uses: Apart from the uses mentioned in section 1.2 no other specific uses are stipulated

SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Occupational exposure limits: Not available

Biological limit values: Not available

Exposure limits at intended use: Not available

Remark: Not available

Appropriate engineering controls:

Technical measures and the application of suitable work processes have priority over personal protection equipment.

Provide adequate ventilation as well as local exhaustion at critical locations.

Individual protection measures, such as personal protective equipment: Not available

Eye/face protection: Suitable eye protection: Wear eye protection equipment.

Skin protection:

Hand protection:

Suitable gloves type: Wear protective gloves.

Additional hand protection measures:

Do not wear gloves near machines and rotating tools.

Use gloves only once.

Remark:

When handling chemical substances, protective gloves must be worn with the CE-label including the four control digits.

The quality of the protective gloves resistant to chemicals must be chosen as a function of the specific working place concentration and quantity of hazardous substances.

For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves.

Breakthrough times and swelling properties of the material must be taken into consideration.

Body protection: Suitable protective clothing: lab coat.

Respiratory protection : Respiratory protection necessary at:

If technical exhaust or ventilation measures are not possible or insufficient, respiratory protection must be worn.

Suitable respiratory protection apparatus: Wear respiratory protection.

Remark:

The filter class must be suitable for the maximum contaminant concentration (gas/vapour/aerosol/particulates) that may arise when handling the product. If the concentration is exceeded, self-contained breathing apparatus must be used.

Observe the wear time limits as specified by the manufacturer.

Environmental exposure controls: No special measures are necessary.

Consumer exposure controls: Not available

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state: Liquid

Color: Not available

Odor: Not available

Vapor pressure: Not available

pH: Not available

Boiling point/range: Not available

Melting point/range: Not available

Flash point: Not available

Flammability: Not available

Vapor density: Not available

Upper/lower flammability or explosive limits: Not available

Relative density: Not available

Solubility(ies): Soluble

Partition coefficient n-octanol/water (log value): Not applicable

Auto-ignition temperature: Not available

Decomposition temperature: Not available

Dynamic viscosity: Not applicable

Kinematic viscosity: Not available

Oxidizing properties: Not available

Solubility in other Solvents: Not available

Particle characteristics: Not applicable

Information concerning to the classes of physical hazards: Not available

Other security characteristics: Not available

SECTION 10. STABILITY AND REACTIVITY

Reactivity: No data available.

Chemical stability: The product is stable when stored at normal ambient temperatures.

Possibility of hazardous reactions: No hazardous reaction when handled and stored according to provisions.

Conditions to avoid: No data available.

Incompatible materials: No data available.

Hazardous decomposition products: Does not decompose when used for intended uses.

Additional information: Not available

SECTION 11. TOXICOLOGICAL INFORMATION

Acute oral toxicity: The product is not classified.

Substances: Not available

Acute dermal toxicity: The product is not classified.

Substances: Not available

Acute inhalation toxicity: The product is not classified.

Substances: Not available

Skin corrosion/irritation: The product is not classified.

Substances: Not available

Serious eye damage/irritation: The product is not classified.

Substances: Not available

Skin sensitisation: The product is not classified.

Substances: Not available

Specific target organ toxicity (repeated exposure): The product is not classified.

Substances: Not available

Specific target organ toxicity (single exposure): The product is not classified.

Substances: Not available

Carcinogenicity: The product is not classified.

Substances: Not available

Reproductive toxicity: The product is not classified.

Substances: Not available

Germ cell mutagenicity: The product is not classified.

Substances: Not available

Sensitisation to the respiratory tract: The product is not classified.

Substances: Not available

Additional information: Not available

SECTION 12. ECOLOGICAL INFORMATION

Toxicity: Based on available data, the classification criteria are not met.

Substances: Not available

Persistence and degradability: The product has not been tested.

Substances: Not available

Bioaccumulative potential: The product has not been tested.

Substances: Not available

Mobility in soil: The product has not been tested.

Substances: Not available

Results of PBT and vPvB assessment: According to Regulation (EU) 1907/2006, no substances are assessed as PBT or vPvB.

Endocrine disrupting properties: According to Regulation (EU) 2017/2100 or Regulation (EU) 2018/605, no substances are known to have endocrine disrupting properties.

Other adverse effects: Not available

Additional ecotoxicological information: Not available

SECTION 13. DISPOSAL CONSIDERATIONS

Waste treatment methods

Product/Packaging disposal: Waste treatment options: Appropriate disposal/Product:

Waste requiring special supervision.

Dispose of waste according to applicable legislation.

Delivery to an approved waste disposal company.

Appropriate disposal/Package:

Non-contaminated packages must be recycled or disposed of**.**

Contaminated packing must be completely emptied and can be reused after proper cleaning.

Packing which cannot be properly cleaned must be disposed of.

Dispose of waste according to applicable legislation.

Remark:

For recycling, contact manufacturer.

Collect the waste separately.

Consult the appropriate authorities about waste disposal.

Do not mix with other waste.

The waste is to be kept separate from other types of waste until its disposal.

Concerning the waste, it has to be checked, whether transport authorization is required.

SECTION 14. TRANSPORT INFORMATION

	Land transport (ADR/RID):	Inland waterway transport (ADN):	Sea transport (IMDG):	Air transport (ICAO-TI/IATADGR):
UN number:	1993	1993	1993	1993
UN proper shipping name:	FLAMMABLE LIQUID, N.O.S. (vapour pressure at 50 °C more than 110 kPa)	FLAMMABLE LIQUID, N.O.S. (vapour pressure at 50 °C more than 110 kPa)	FLAMMABLE LIQUID, N.O.S. (vapour pressure at 50 °C more than 110 kPa)	FLAMMABLE LIQUID, N.O.S. (vapour pressure at 50 °C more than 110 kPa)
Transport hazard class(es):				
Class or Division:	3	3	3	3
Hazard label(s):				
Packing group:	II	II	II	II

Environmental hazards: Not available

Special precautions for user: Not available

Bulk shipping according to IMO instruments: Not available

Additional information: Not available

SECTION 15. REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture: This SDS has been established in accordance with HazCom 2012.

US State Regulations:

Toxic Substances Control Act Inventory List (TSCA):

Substance	CAS	EC
2-Propenoic acid, homopolymer	9003-01-4	

Chemical Safety Assessment: Not available

Additional information: Not available

SECTION 16. OTHER INFORMATION

Indication of changes: Not applicable (first edition of the MSDS).

Abbreviations and acronyms

CAS: Chemical Abstract Service Number.

IATA: International Air Transport Association.

IMDG: International Maritime Dangerous Goods Code.

DPD Dangerous Preparation Directive.

UN number: United Nations number.

No EC: European Commission Number.

DOT: Department of Transportation.

HCS/HazCom: Hazard Communication.

Key literature references and sources for data: No data available.

The classification of the mixture is in accordance with the evaluation method described in HazCom 2012: The classification of the mixture is in accordance with the evaluation method described in HazCom 2012.

The classification of the mixture is in accordance with the evaluation method described in the GHS

H225	Flam. Liq. 2	Highly flammable liquid and vapour.
H302	Acute Tox. 4 ORAL	Harmful if swallowed
H314	Skin Corr. 1B	Causes severe skin burns and eye damage

H318	Eye Dam. 1	Causes serious eye damage
H335	STOT SE 3 H335	May cause respiratory irritation

Training advice: Refer to Sections 4, 5, 6, 7 and 8 of this safety data sheet.

Additional information: The information given in this Safety Data Sheet is based on our present knowledge and national regulations. This Safety Data Sheet describes safety requirements relative to identified uses, it doesn't guarantee all the product properties particularly in the case of non-identified uses. The product mustn't be used for any uses other than those identified under heading 1.Since the user's working conditions are not known by us, it is the responsibility of the user to take all necessary measures to comply with legal requirements for specific uses and avoid negative health effects.
